

RUTH G. CIRILLO

User Experience Designer • www.ruthcirillo.info • rbgloria@hotmail.com

OBJECTIVE

To focus on part of the job I enjoy most by moving to a full-time user experience role.

QUALIFICATIONS

- Proficient in developing functional prototypes using markup languages such as HTML, CSS, Sass, and LESS to create multi-browser compatible web applications.
- Experience in creating annotated wireframes using Balsamiq and Sketch.
- Experience working with business analysts to define user requirements.
- Some experience using front end frameworks, namely Bootstrap and Angular.
- Experience managing front end assets using tools such as Gulp.js, Grunt.js, Node Package Manager, Node.js, and Bower.
- Experience using version control such as Git and SVN.
- Experience creating mockups and graphic assets using Adobe Photoshop, Adobe Illustrator, Adobe InDesign.
- Strong interest in creating an inclusive and barrier-free web.
- Active Secret Clearance.

PROFESSIONAL EXPERIENCE

11/2014 – Present

Senior Interactive Developer at Sapient Consulting Public Sector

Document feature components as they pertain to front end development. Produce HTML, CSS, and JavaScript code for implementation with backend service. Support manual testing. Work with business analysts to understand and gather business and user requirements. Produce Balsamiq wireframes to convey concepts addressing requirements. Create interactive prototypes using HTML, CSS, and JavaScript for usability testing.

02/2014 – 11/2014

Web Designer at SAIC

Worked with product owners and business analysts to identify user interface requirements. Designed and communicated conceptual solutions using Photoshop mockups. Provided backend developers with HTML and CSS code for implementation of new features. Smoke tested new features with application developers to ensure adherence to business requirements and approved design.

05/2013 – 01/2014

Web Designer II at Serco North America

Contract and role were transitioned to SAIC on 2/2014.

09/2012 – 05/2013

Front End Developer at CGI Federal

Refactored front-end code to utilize front end framework (Bootstrap 2). Identified and corrected errors for compliance with Section 508.

09/2009 – 09/2012

Senior Interactive Developer at Sapient Government Services

Converted Photoshop mockups to standards compliant HTML, CSS, and JavaScript. Under direction of Creative Director, updated UX/UI design

documents such as wireframes, Photoshop mockups, and visual style guides. Nominated for the “Rookie of the Year” award in 2010.

01/2007 – 09/2009

Web Developer at Sabre Hospitality Solutions

Converted Photoshop mockups to standards compliant HTML, CSS, and JavaScript. Developed HTML email templates.

05/2006 – 01/2007

Multimedia Specialist at SYColeman

Conceptualized and developed the 2006 SYColeman Holiday Party online registration site. Coded the HTML and CSS for the 2007 Army Posture Statement website.

EDUCATION

George Mason University, Fairfax, VA

- Earned 42 credit hours in Information Technology between 8/2004 to 12/2006.
- B.S. in Health, Fitness and Recreation Resources 2002.
